

Features

- *Double telescopic antenna mast / tripod*
- *One year standard warranty*
- *Modular Design*

Description

The double telescopic antenna mast / tripod is continuously height-adjustable up to 3m.

The mast rods and feet are made of glass fibre to avoid unwanted reflections.

The modular design makes it possible to use different telescope parts and it is mounted on a mast foot made of low-reflective fiberglass.

Both of them provide a secure stand and easy adjustment on uneven ground. Antennas or adapters can be mounted on the 3/8" male thread.

Specifications*

<i>Model</i>	MAS FG-06
<i>Overall height adjustment</i>	Up to 3m
<i>Antenna or Adapter mount Screw Size</i>	3/8" male
