

## Features

- *Double telescopic antenna mast / tripod*
- *One year standard warranty*
- *Modular Design*

## Description

*The double telescopic antenna mast / tripod is continuously height-adjustable over 1000mm – 2000mm.*

*The mast rods and feet are made of glass fibre to avoid unwanted reflections.*

*The modular design makes it possible to use different telescope parts and it is mounted on a mast foot made of low-reflective fiberglass.*

*Both of them provide a secure stand and easy adjustment on uneven ground. Antennas or adapters can be mounted on the 3/8" male thread.*
