

Features

- **Double telescopic antenna mast / tripod**
- **One year standard warranty**
- **Modular Design**

Description

The double telescopic antenna mast / tripod is continuously height-adjustable over 1590mm – 3150mm.

The mast rods and feet are made of glass fibre to avoid unwanted reflections.

The modular design with three sections makes it possible to use different telescope parts and it is mounted on a mast foot made of low-reflective fiberglass.

Provides a secure stand and easy adjustment on uneven ground. Antennas or adapters can be mounted on the 3/8" or 1/4" male thread. Has an arrangement to install hooks for fixing using rope for outdoor usage.

Specifications*

Model	MAS FG-08
Overall height adjustment	1590mm – 3150mm
Antenna or Adapter mount Screw Size	3/8" or 1/4" male
Material	Fibre Glass
Max weight when centre loaded	20 Kg
Diameter of circle around foot	Fixed : 0.9m
Folded Dimensions	1.7mx0.15mx0.15m
Weight	5-8 Kg
Environmental	-20°C to +40°C

* Nominal values, subject to change without notice.

Adapters

Custom made adapters can be made for installation of various types of Antennae
